

Academic Microbiologist/Clinical Chemist/Immunologist (open rank)
University of Pittsburgh School of Medicine

The Department of Pathology at the University of Pittsburgh is seeking faculty members for the Divisions of Immunopathology, Clinical Chemistry and Microbiology in the Section of Laboratory Medicine. The candidates must have an M.D. with board certification in Laboratory Medicine/Clinical Pathology or a Ph.D. with training and boards (or board eligible) in Immunopathology, Microbiology, and/or Clinical Chemistry; experience in a large hospital-based service is beneficial. Academic rank and professional track will be determined by experience and qualifications. The successful candidates for this position will assist in the ongoing development of cutting edge technologies and diagnostics, contribute significantly to the varied diagnostic, research and educational activities of their specific Divisions, and pursue clinical/translational or basic investigations. The Department will provide generous funds for transition of established research program. The successful candidate will be able to cover aspects of Clinical Immunopathology along with either Clinical Chemistry or Microbiology. All Divisions in Laboratory Medicine have a strong interest in service, research and education and serves the entire UPMC Health System, encompassing some 20+ hospitals. Academic rank, tenure and salary will be commensurate with experience. Eligibility for medical licensure or practice in Pennsylvania is required. Interested persons may forward their CV in confidence to Alan Wells, M.D., D.M.Sc, Executive Vice-Chair for Laboratory Medicine, Department of Pathology, UPMC Clinical Lab Building-Rm. 9022, 3477 Euler Way, Pittsburgh, PA 15213 (wellsa@upmc.edu).

The University of Pittsburgh is an Affirmative Action/Equal Opportunity Employer.
