

**THE DEPARTMENT OF PATHOLOGY AND LABORATORY MEDICINE AT THE UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL** has a senior level tenure-track or clinical-track opening (associate to full professor) for an academic clinical chemist. Applicants must hold either an MD degree with board certification in clinical pathology or a Ph.D. degree with board certification in clinical chemistry by the ABCC, and at least five years of experience in an academic laboratory medicine setting. This individual will be responsible for the coordinated scientific direction and technical and administrative oversight of the diagnostic and consultative services within the McLendon Clinical Laboratories Core Laboratory (UNC Health Care) and, where needed, extending to additional sites within the UNC Health Care network. The MCL Core Laboratory is a busy, high-complexity laboratory whose services span all aspects of clinical chemistry, hematology, and coagulation, and includes laboratory developed testing. The position will focus on clinical chemistry but the individual will have a close administrative relationship with the associate directors of hematology and coagulation. Responsibilities include provision of consultative services to physicians regarding test utilization and interpretation, active engagement in quality assurance activities including those related to accreditation, and strategic planning to ensure the laboratory maintains itself as a state of the art facility. Duties will also include active participation in the educational mission of the department including the teaching of residents, fellows, and medical, dental, and clinical laboratory science students. This is an outstanding opportunity for a well-trained and highly motivated individual to assist with the direction and future growth of this dynamic laboratory facility. The successful candidate must also have a demonstrated record of professional service and academic achievement through independent research and scholarly publications. Interested candidates must complete an online application at: <http://unc.peopleadmin.com/postings/121152> and include a current CV and names and addresses of five references. Persons with questions about this position may contact Monte Willis, MD, PhD, MBA, the Chair of the Search Committee, UNC Department of Pathology and Laboratory Medicine at e-mail: [monte\\_willis@med.unc.edu](mailto:monte_willis@med.unc.edu). Visit <https://www.med.unc.edu/pathology> for additional information about the department. The University of North Carolina at Chapel Hill is an equal opportunity, affirmative action employer and welcomes all to apply regardless of race, color, gender, national origin, age, religion, genetic information, sexual orientation, gender identity, or gender expression. We also encourage protected veterans and individuals with disabilities to apply.
