

Director of Clinical Chemistry
Houston Methodist
Houston, TX

The Department of Pathology and Genomic Medicine at Houston Methodist is recruiting a Clinical Chemist. The Department is the exclusive provider of pathology services for Houston Methodist (HM) which has seven hospitals in the Houston area. HM currently has more than 2,000 beds and is expanding within the greater Houston area.

As the Director of Clinical Chemistry, the successful candidate will provide overall direction for clinical chemistry testing for Houston Methodist. The successful candidate will provide service primarily at Houston Methodist Hospital in the Texas Medical Center but will provide direction for clinical chemistry across the HM Hospital System. The Director will also share in service responsibilities with other faculty and will report to the Director of Clinical Pathology. The successful candidate will have a proven track record of providing outstanding clinical chemistry diagnostic service, working effectively with departmental colleagues, other medical staff members, laboratory technical personnel, and hospital administration and educating residents and fellows. Opportunities exist for collaborative research interactions and other academic endeavors. The Department has a ComACC fellowship in clinical chemistry as well as ACGME-accredited AP/CP residency and multiple fellowship programs. The Director is expected to become the lead on the ComACC fellowship.

The ideal candidate should have at least 5 years of experience directing a clinical chemistry laboratory and possess either 1) a PhD degree, ComACC fellowship training in clinical chemistry and ABCC board certification; or 2) a MD or MD/PhD with clinical pathology board certification or eligibility. Qualified board-certified candidates will also be considered. Physician candidates must have or be able to obtain a Texas medical license. HM has a primary affiliation with Weill Cornell Medical College, and the successful candidate may be eligible for a faculty appointment.

An excellent salary with full benefits is offered, and assistance with relocation may be provided.

Interested candidates should email their CVs, and names and contact information of three professional references to David W. Bernard, MD, PhD, Department of Pathology and Genomic Medicine, MS 227, Houston Methodist Hospital, 6565 Fannin Street, Houston, Texas 77030. c/o vlwatson@houstonmethodist.org Fax: 713-441-1565; Phone: 713-441-4456.
