

Assistant Director, Clinical Chemistry, Ann & Robert H. Lurie Children's Hospital, Chicago IL

The Department of Pathology and Laboratory Medicine invites applications for the position of Assistant Director of Clinical Chemistry. This full-time, continuing position carries a primary faculty appointment at the Feinberg School of Medicine, Northwestern University, at a rank commensurate with experience and academic activity (Instructor or Assistant Professor). This position is responsible for participating in the leadership of a coordinated core laboratory operation and Point of Care Testing, and in overseeing the Mass Spectrometry Laboratory. Thus, candidates with experience in clinical mass spectrometry are preferred. In addition to laboratory direction, the successful candidate will participate in clinical or translational research, and teach and supervise residents, fellows, and medical students. The candidate should be certified or eligible for certification by the American Board of Pathology in Clinical Pathology or by the American Board of Clinical Chemistry. Lurie Children's Hospital is an independent, free-standing hospital that provides tertiary care pediatric services, with active programs in all pediatric specialties. Applications will be accepted until the position is filled. Curriculum vitae and a statement of interest should be submitted to Elizabeth J. Perlman, M.D., Ann & Robert H Lurie Children's Hospital, 225 East Chicago Ave, 08423, Chicago, IL 60611. eperlman@luriechildrens.org

Northwestern University and Lurie Children's Hospital are Equal Opportunity, Affirmative Action Employers of all protected classes, including veterans and individuals with disabilities. Women, underrepresented racial and ethnic minorities, individuals with disabilities, and veterans are encouraged to apply. Hiring is contingent upon eligibility to work in the United States.
