

Academic Career Opportunity

The University of Colorado Anschutz Medical Campus (CU Anschutz) is the largest academic health center in the Rocky Mountain region. The campus combines interdisciplinary teaching, research, and clinical facilities to prepare the region's future health care professionals, provide the best available health care at two nationally recognized hospitals, and be a national leader in life sciences research.

Assistant/Associate Professor of Clinical Pathology

Position Overview:

The Department of Pathology at the University of Colorado Anschutz Medical Campus is seeking a full-time clinical pathologist, or clinical scientist faculty member at an academic rank appropriate to experience. This position will require expertise in chemistry, toxicology, or both. Expertise in mass spectrometer method development is preferred.

The successful candidate will practice clinical chemistry at the UCH Clinical Laboratory. All three missions of the University of Colorado Denver, including clinical care, teaching, and scholarly productivity are expected. Candidates should demonstrate strong interpersonal and communication skills, and will be expected to positively interact with technical and professional colleagues, residents, and fellows at the University of Colorado Hospital and University of Colorado Department of Pathology laboratories.

Minimum Qualifications:

Clinical pathology candidates must be board certified/board eligible in clinical pathology and must be eligible for a Colorado state medical license.

Clinical scientist candidates must have a PhD degree, have completed a COMACC accredited fellowship, and be certified by the American Board of Clinical Chemistry in chemistry, toxicology, or both.

Preferred Qualifications:

The candidate would be an expert in chemical pathology, including mass spectrometer method development. They will also be proficient in their clinical, administrative, and teaching abilities.

Salary and Benefits:

Salary is commensurate with skills and experience. The University of Colorado offers a full benefits package. Information on University benefits programs, including eligibility, is located at the Employee Services website:
