

Medical Director of Clinical and Forensic Toxicology and Clinical Chemistry

Hennepin County Medical Center

The Department of Laboratory Medicine and Pathology at **Hennepin County Medical Center**, Minneapolis MN invites applications for the position of Medical Director of Clinical and Forensic Toxicology and Clinical Chemistry. Hennepin County Medical Center is a University of Minnesota affiliated level 1 trauma center, primary and tertiary care hospital with research and teaching programs.

Responsibilities include participation in the Clinical Pathology/Clinical Laboratories diagnostic services and provide specific leadership for the Clinical Chemistry (CAP) and Clinical and Forensic Toxicology (ABFT, FUDT-CAP accredited) sections of the Laboratory; directing the ComACC accredited clinical Chemistry program at Hennepin County Medical Center; participate in the training/teaching programs relative to the University of Minnesota affiliation (residents, fellows and medical students).

Successful candidate may qualify for appointment at the rank of Assistant/Associate/Full Professor without tenure in the Department of Laboratory Medicine and Pathology at the University of Minnesota School of Medicine. Research opportunities are available through the Minneapolis Medical Research Foundation of Hennepin County Medical Center.

Requirements include a PhD or MD and be Board Certified in Toxicology (ABFT or ABCC) and Clinical Chemistry (ABCC or ABP Chemical Pathology or CACB), with a minimum of 3 years' experience. Demonstrated administrative experience in Clinical and Forensic Toxicology (working with the medical examiner's office) and Clinical Chemistry and experience in clinical assay development and validation, quality control and quality assurance, interpretation of laboratory test results, and consultation with physicians and other health care providers.

Anticipate hiring by September 2018. Qualified applicants should send a letter of introduction including current CV, career goals, and the names, addresses, and telephone numbers of three professional references to:
