Omni New Haven

155 Temple St, New Haven, CT

SCIENTIFIC & EVENTS PROGRAM

All events at Omni New Haven unless otherwise specified

Thursday, June 15, 2017

8AM-12PM *Clinical Analytics Symposium*

The clinical laboratory is a major source of health care data. Increasingly this data is being integrated with other data to inform health system wide actions meant to improve diagnostic test utilization, service efficiency, and “meaningful use.” This session will feature didactic presentations designed for individuals interested in learning more about laboratory analytics and short presentations of current trends in clinical laboratory analytics. The session will conclude with a discussions of the challenges for the field and perspectives from those currently developing clinical laboratory analytics infrastructure and solutions.

These topics will be addressed through individual talks and a panel discussion.

Speakers:

Patrick Mathias MD, PhD (Dept. of Laboratory Medicine, Univ. of Washington)

Joe Rudolf MD (Dept. of Pathology, Brigham & Women’s Hospital)

George Hauser MD (Dept. of Laboratory Medicine, Yale)
